# INTRODUCTION TO MICROCOMPUTERS LAB.

152115025

Homework #4

Calculation in mathematics $(x * 2)^{(y/2)}$ illustrated in the figure above is what you are expected to do in this homework. <u>Use the simulator interface while using the assigned ports!</u> You can assume that y divides precisely by two and the numbers used will not exceed 255.

Save your completed work in the file named "152120XX10XX_AdSoyad_HwX.asm" and zip it into file of the same name (not .asm.zip!). Upload the zip file to the relevant section on the UZEM.

<u>As indicated in the orientation, make sure that the comments on your work are descriptive, as this will be effective in scoring.</u>
